Adventure Experience
MOUNTAIN BIKE / HALF DAY
The Glacier of Chicon

Two wheels is the most exhilarating way to see the most of the Land of the Incas at the closest perspective.

This is an uphill route, with stunning views of glaciers, that goes via the Chicon gorge to the community of the same name. It's best for those who are in good physical condition, have acclimatized to the altitude and are strong mountain bikers because parts of the route, which necessitate ascents of 2800 meters, demand considerable effort and skill.

The tour begins from Wayra and goes along rural paths between small farms in the community of Palcaraqui. We also visit the archaeological ruins of “Huayna Capac” in Urubamba. We then begin the ascent along the Chicon gorge which takes approximately one hour. This is a gentle gradual ascent, which gives us time to take in the surrounding scenery, the terraced farmlands with different crops for different levels.

When we get to the higher parts of the gorge, we take a rest break, enjoying the views of glaciers and forests, with native plants like Chachacomos, Queuñaes and Alisos. Our way back is downhill – a fast, exciting, adrenalin-filled return.

THE GLACIER OF CHICON
