

BRAND GUIDELINES

Welcome to Sol y Luna Brand Guidelines

Our brand is central to every interaction Sol y Luna has with people. That's why it's important that everyone who works with our brand fully understands how its creative expression works.

This document is a toolkit to help you to use the brand in the best way for your specific task. We know that every challenge is different, so instead of giving you detailed templates for every possible use, we have simply defined basic rules and notional examples to guide you.
